PROFESSIONAL SUMMARY

Frontend developer with 2+ years of production experience building high-performance React and Next.js applications in healthcare and productivity domains. Proven track record of reducing load times by 65%, eliminating API overhead by 55%, and implementing strict TypeScript/CI pipelines that catch 90+ bugs pre-deployment. Skilled in SSR architecture, state management patterns, and building scalable multi-role platforms.

EXPERIENCE

Turnifly

May 2025 – Aug 2025

Mid-Level Frontend Developer (Contract) — JavaScript, TypeScript, React

- Reduced initial page load time by 65% and API calls by 55% through strategic code splitting, lazy-loaded routes, and React Query caching with optimistic updates.
- Architected 6-step progressive task wizard with dynamic validation across 15+ parameters, enabling complex habit-tracking workflows with scheduling, penalties, and reminders.
- Decreased code review turnaround by 40% and caught 90+ potential bugs at compile time by implementing CI/CD pipeline (GitHub Actions) with pre-commit hooks and strict TypeScript configuration.

Datatech LLC

Apr 2023 – Jan 2024

Junior Frontend Developer — JavaScript, TypeScript, React, Next.js

- Engineered medical appointment platform with Next.js SSR and Redux Toolkit, handling real-time doctor/diagnostic bookings, SMS authentication, and payment gateway integration across 50+ interconnected pages.
- Built dynamic feedback and rating system with advanced filtering, sorting, and carousel navigation, establishing trust metrics for 100+ healthcare providers across clinics and diagnostic centers.
- Resolved SSR/client state hydration mismatch by implementing Redux Persist synchronization layer, improving Core Web Vitals scores and organic search visibility for medical service pages.
- Fixed critical payment validation bugs and implemented appointment cancellation/editing workflows, reducing support tickets by 30% and increasing booking completion rates.

PROJECTS

smartjob.uz — Job Marketplace Platform | [Live Site](#)

- Developed full-scale job marketplace featuring resume builder, applicant tracking system, mock interview prep, and role-based dashboards serving job seekers, employers, and admins.
- Designed hybrid state management layer (Redux Toolkit + React Query) with 19 custom hooks, 3-language internationalization (i18n), infinite scroll virtualization, and OAuth authentication for enterprise-scale listings.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Redux Toolkit, React Query (TanStack Query), Tailwind CSS, Ant Design, Material UI

Testing: Jest, React Testing Library, Cypress

Tools & DevOps: Git, GitHub, GitHub Actions, Vite, Webpack, Postman, Swagger, ClickUp, Figma

Concepts: REST APIs, SSR/SSG, Responsive Design, Accessibility (WCAG), Performance Optimization, Agile/Scrum

EDUCATION

Bukhara State University

Oct 2020 – Jun 2025

Bachelor of Science in Primary Education — GPA: 3.67/5.0

Josh Academy (Online)

Oct 2022 – Jan 2023

Frontend Development Program — React, JavaScript ES6+, Responsive Design
